HELPING TO STEM THE SPREAD OF COVID-19

DETECTING THE VIRUS
• Launched new lab-based antibody blood test, the SARS-CoV-2 IgG test, available now in the U.S. for the detection of the antibody that identifies if a person has had the novel coronavirus (COVID-19)
• Launched two new COVID-19 detection tests: the rapid point-of-care ID NOW™ COVID-19 test, delivering positive results in as little as five minutes, as well as the m2000™ RealTime SARS-CoV-2 EUA laboratory test for hospital and reference labs
• Expect to produce millions of COVID-19 tests per month, deploying them to areas of greatest impact

SUPPORTING IMPACTED COMMUNITIES
• Donating funding and products to support frontline healthcare workers, families and communities

PROTECTING OUR EMPLOYEES
• Taken steps at our sites to limit exposure
• Further enhanced facility safety for employees working to continue to supply our vital healthcare products
