*Breakthrough Invention in* MEDICAL DEVICES

**FREESTYLE<sup>®</sup> LIBRE**

**Now approved in the U.S.**

This revolutionary system replaces blood glucose monitoring, eliminating the need for routine finger sticks.\*\*

**HEARTMATE 3<sup>™</sup> LEFT VENTRICULAR ASSIST SYSTEM**

**Launched in the U.S.**

Helps a weak heart pump blood in advanced heart failure patients awaiting further treatment, including heart transplants.

**MR-CONDITIONAL LABELING FOR ELLIPSE<sup>™</sup> ICD**

**Approved in the U.S.**

One of Abbott's most widely-used implantable cardioverter defibrillators is now approved to improve access for patients suffering from abnormally fast heart rhythms who may need an MRI scan in the future.

*Leadership in* DIAGNOSTICS

POINT OF CARE

**#1**

Abbott is now the world leader in point of care testing.

GAME-CHANGING TECHNOLOGY<sup>†</sup>

Abbott continues to launch its new **Alinity<sup>™</sup>** diagnostics systems designed to increase laboratory efficiency while providing quality results.

<sup>1</sup>Reported sales +28.8% <sup>2</sup>Business segment sales are rounded. Please see our press release dated October 18, 2017, for full financial data.

\*Comparable operational results are non-GAAP and include the prior year results for St. Jude Medical, and exclude the impact of exchange and prior and current year results for divested businesses. For full financial data and reconciliation of non-GAAP measures, please see our press release dated October 18, 2017.

\*\* Finger sticks are required for treatment decisions when you see Check Blood Glucose symbol, when symptoms do not match system readings, when you suspect readings may be inaccurate, or when you experience symptoms that may be due to high or low blood glucose. Review all product information before use or contact Abbott Toll Free (855-632-8658) or visit [www.freestylelibre.us](http://www.freestylelibre.us) for detailed indications for use and safety information.
