Abbott Park, Ill., Feb. 21, 2017 — Abbott announced today that it has commenced offers to exchange all validly tendered and accepted notes of the following series issued by St. Jude Medical, LLC (successor to St. Jude Medical, Inc. - STJ) for notes to be issued by Abbott as described in, and for the consideration summarized in, the table below. A registration statement on Form S-4 relating to the issuance of the Abbott notes was filed with the Securities and Exchange Commission on Feb. 21, 2017, but has not yet been declared effective.

¹ Consideration, representing principal amount of Abbott notes, per \$1,000 principal amount of STJ notes validly tendered, subject to any rounding as described in the Registration Statement.

² As used in this table, the term "Abbott notes" refers, in each case, to the series of Abbott notes corresponding to the series of STJ notes of like tenor and coupon.

³ Includes the early participation premium for STJ notes validly tendered before the early consent date (as described in the prospectus (as defined below) and not validly withdrawn.

In connection with the exchange offers, Abbott is also soliciting consents from holders of the STJ notes to amend the indentures governing the STJ notes to eliminate various covenants, event of default provisions and other provisions under the applicable indentures and STJ notes. If the proposed amendments are adopted for any series, the STJ notes of that series will be governed by the applicable amended indenture, which will have less restrictive terms and afford reduced protections to the holders of those securities compared to those currently in the indentures or those applicable to the Abbott notes to be issued by Abbott.

In order for the proposed amendments to the indentures governing the STJ notes to be adopted with respect to a series of STJ notes, holders of a majority in aggregate principal amount of the outstanding notes of such series must consent to them.

The exchange offers and consent solicitations (together, the exchange offers) commence on Feb. 21, 2017, and expire at 11:59 p.m., New York City time, on Mar. 20, 2017, unless extended or terminated.

In exchange for each \$1,000 principal amount of STJ notes that is validly tendered prior to 5:00 p.m., New York City time, on Mar. 6, 2017, and not validly withdrawn, holders will be eligible to receive the consideration set out in the table above under the "total consideration" column, which consists of \$1,000 principal amount of Abbott notes and a cash consent fee of \$2.50. The total consideration includes the early

participation premium set out in the table above. In exchange for each \$1,000 principal amount of STJ notes that is validly tendered after 5:00 p.m., New York City time on Mar. 6, 2017, but on or before 11:59 p.m., New York City time on Mar. 20, 2017, and not validly withdrawn, holders will be eligible to receive only the consideration set out in the table above under the “exchange consideration” column, which is equal to the total consideration less the early participation premium and so consists of \$970 principal amount of Abbott notes and the consent fee.

Each Abbott note issued in exchange for a STJ note will accrue interest at the same annual interest rate and have the same currency, maturity and interest payment dates as the applicable series of STJ notes. The Abbott notes will be unsecured, unsubordinated debt obligations of Abbott, will rank equally in right of payment with all other existing and future unsubordinated indebtedness and other obligations of Abbott and will be effectively subordinated in right of payment to all existing and future secured indebtedness and other obligations of Abbott (to the extent of the value of the collateral securing such obligations). The Abbott notes will also be structurally subordinated to all obligations of the subsidiaries of Abbott with respect to the assets of such subsidiaries (including STJ and its respective subsidiaries), other than any subsidiaries that may guarantee the Abbott notes in the future.
