*Organic sales growth excludes impact of foreign exchange and the impact of discontinuing the ZonePerfect® product line in the Nutrition business. For full financial data and reconciliation of non-GAAP measures, please see our press release dated Oct. 15, 2025, available at www.abbottinvestor.com.
**Excludes the impact of COVID-19 testing sales.

1. On a GAAP basis, third-quarter Abbott sales increased 6.9%. 2. Third-quarter 2025 GAAP diluted EPS was \$0.94. 3. Abbott has not provided the related GAAP financial measures on a forward-looking basis for these forward-looking non-GAAP financial measures because the company is unable to predict with reasonable certainty and without unreasonable effort the timing and impact of certain items such as restructuring and cost reduction initiatives, charges for intangible asset impairments, acquisition related expenses, and foreign exchange, which could significantly impact Abbott's results in accordance with GAAP.
